The Drug Abuse Screening Test (DAST)

Substance Abuse Screening Instrument (O4/05)

The Drug Abuse Screening Test (DAST) was developed in 1982 and is still an excellent screening tool. It is a 28-item self-report scale that consists of items that parallel those of the Michigan Alcoholism Screening Test (MAST). The DAST has "exhibited valid psychometric properties" and has been found to be "a sensitive screening instrument for the abuse of drugs other than alcohol.

Directions: The following questions concern information about your involvement with drugs. Drug abuse refers to (1) the use of prescribed or "over-the-counter" drugs in excess of the directions, and (2) any non-medical use of drugs. Consider the past year (12 months) and carefully read each statement. Then decide whether your answer is YES or NO and check the appropriate space. Please be sure to answer every question.

1. Have you used drugs other than those required for medical reasons? : yes
2. Have you abused prescription drugs? : yes
3. Do you abuse more than one drug at a time? : yes
4. Can you get through the week without using drugs (other than those required for medical reasons)? : yes
5. Are you always able to stop using drugs when you want to? : yes
6. Do you abuse drugs on a continuous basis? : yes
7. Do you try to limit your drug use to certain situations? : yes
8. Have you had "blackouts" or "flashbacks" as a result of drug use? : yes
9. Do you ever feel bad about your drug abuse? : yes
10. Does your spouse (or parents) ever complain about your involvement with drugs? : yes
11. Do your friends or relatives know or suspect you abuse drugs? : yes

12. Has drug abuse ever created problems between you and your spouse? : yes
13. Has any family member ever sought help for problems related to your drug use? : yes
14. Have you ever lost friends because of your use of drugs? : yes
15. Have you ever neglected your family or missed work because of your use of drugs? : yes
16. Have you ever been in trouble at work because of drug abuse? : yes
17. Have you ever lost a job because of drug abuse? : yes
18. Have you gotten into fights when under the influence of drugs? : yes
19. Have you ever been arrested because of unusual behavior while under the influence of drugs? : yes
20. Have you ever been arrested for driving while under the influence of drugs? : yes
21. Have you engaged in illegal activities in order to obtain drug? : yes
22. Have you ever been arrested for possession of illegal drugs? : yes
23. Have you ever experienced withdrawal symptoms as a result of heavy drug intake? : no
24. Have you had medical problems as a result of your drug use (e.g., memory loss, hepatitis, convulsions, bleeding, etc.)? : no
25. Have you ever gone to anyone for help for a drug problem? : yes
26. Have you ever been in a hospital for medical problems related to your drug use? : yes
27. Have you ever been involved in a treatment program specifically related to drug use? : yes
28. Have you been treated as an outpatient for problems related to drug abuse? : yes

Scoring and interpretation: A score of "1" is given for each YES response, except for items 4,5, and 7, for which a NO response is given a score of "1." Based on data from a heterogeneous psychiatric patient population, cutoff scores of 6 through 11 are considered to be optimal for screening for substance use disorders. Using a cutoff score of 6 has been found to provide excellent sensitivity for identifying patients with substance use disorders as well as satisfactory specificity (i.e., identification of patients who do not have substance use disorders). Using a cutoff score of less than 11 somewhat reduces the sensitivity for identifying patients with substance use disorders, but more accurately identifies the patients who do not have a substance use disorders. Over 12 is definitely a substance abuse problem. In a heterogeneous psychiatric patient population, most items have been shown to correlate at least moderately well with the total scale scores. The items that correlate poorly with the total scale scores appear to be items 4,7,16,20, and 22.

Michigan Alcohol Screening Test MAST

NOTE: This test can be downloaded in PDF format, but Adobe Acrobat is required.

The MAST Test is a simple, self scoring test that helps assess if you have a drinking problem. Please answer YES or NO to the following questions:

- Do you enjoy drinking now and then? : yes
- Do you feel you are a normal drinker? ("normal" - drink as much or less than most other people) : yes
- Have you ever awakened the morning after some drinking the night before and : yes

Rights of Each Client/Bill of Rights

Purpose: To ensure that all clients or their legal guardians are informed of the clients' rights

Policy: It is the policy of ikkop that all clients or their legal guardian be informed of their rights as a client of 0 which will be evidenced by the client's written acknowledgement or documentation in the clients file by the counselor.

PROCEDURE:

okpl; shall inform the clients of the following rights:

â†‡ The right to be informed of these rights, as evidenced by the client's written acknowledgment or by documentation by staff in the clinical record that the client was offered a written copy of these rights and given a written or verbal explanation of these rights in terms the client could understand;

â†‡ The right to be notified of any rules and policies the program has established governing client conduct in the facility;

â†‡ The right to be informed of services available in the program, the names and professional status of the staff providing and/or responsible for the client's care, and fees and related charges, including the payment, fee, deposit, and refund policy of the program and any charges for services not covered by sources of third-party payment or the program's basic rate;

â†‡ The right to be informed if the program has authorized other health care and educational institutions to participate in his or her treatment, the identity and function of these institutions, and to refuse to allow their participation in his or her treatment;

â†‡ The right to receive from his or her physicians or clinical practitioner(s) an explanation of his or her complete medical/health condition or diagnosis, recommended treatment, treatment options, including the option of no treatment, risks(s) of treatment, and expected result(s), in terms that he or she understands;

i. If, in the opinion of the medical director or director of substance abuse counseling, this information would be detrimental to the client's health, or if the client is not capable of understanding the information, the explanation shall be provided to a family member, legal guardian or significant other, as available;

ii. Release of information to a family member, legal guardian or significant other, along with the reason for not informing the client directly, shall be documented in the client's clinical record; and

iii. All consents to release information shall be signed by client or their parent, guardian or legally authorized representative;

â†‡ The right to participate in the planning of his or her care and treatment, and to refuse medication and treatment;

â†‡ A client's refusal of medication or treatment shall be documented in the client's clinical record;

â†‡ The right to participate in experimental research only when the client gives informed, written consent to such participation, or when a guardian or legally authorized representative gives such consent for an incompetent client in accordance with law, rule and regulation;

â†‡ The right to voice grievances or recommend changes in policies and services to program staff, the governing authority, and/or outside representatives of his or her choice either individually or as group, free from restraint, interference, coercion, discrimination, or reprisal;

â†‡ The right to be free from mental and physical abuse, exploitation, and from use of restraints;

â†‡ A client's ordered medications shall not be withheld for failure to comply with facility rules or procedures, unless the decision is made to terminate the client in accordance with this chapter; medications may only be withheld when the facility medical staff determines that such action is medically indicated;

â†‡ The right to confidential treatment of information about the client;

â†‡ Information in the client's clinical record shall not be released to anyone outside the program without the client's written approval to release the information in accordance with Federal statutes and rules for the Confidentiality of Alcohol and Drug Abuse Client Records at 42 U.S.C. §§290dd-2, and 290ee-2, and 42 CFR Part 2 §2.1 et seq., and the provisions of the Health Insurance Portability and Accountability Act (HIPAA) at 45 CFR Parts 160 and 164, unless the release of the information is required and permitted by law, a third-party payment contract, a peer review, or the information is needed by DAS for statutorily authorized purposes; and

â†‡ The program may release data about the client for studies containing aggregated statistics only when the client's identity is protected and masked;

â†‡ The right to be treated with courtesy, consideration, respect, and with recognition of his or her dignity, individuality, and right to privacy, including, but not limited to, auditory and visual privacy;

â†‡ The client's privacy also shall be respected when program staff are discussing the client with others;

â†‡ The right to exercise civil and religious liberties, including the right to independent personal decisions;

â†‡ No religious beliefs or practices, or any attendance at religious services, shall be imposed upon any client;

â†‡ The right to not be discriminated against because of age, race, religion, sex, nationality, sexual orientation, disability (including, but not limited to, blind, deaf, hard of hearing), or ability to pay; or to be deprived of any constitutional, civil, and/or legal rights.

â†‡ Programs shall not discriminate against clients taking medications as prescribed;

â†‡ The right to be transferred or discharged only for medical reasons, for the client's welfare, that of other clients or staff upon the written order of a physician or other licensed clinician, or for failure to pay required fees as agreed at time of admission (except as prohibited by sources of third-party payment);

â†‡ Transfers and discharges, and the reasons therefore, shall be documented in the client's clinical record; and

â†‡ If a transfer or discharge on a non-emergency basis is planned by the outpatient substance abuse treatment program, the client and his or her family shall be given at least 10 days advance notice of such transfer or discharge, except as otherwise provided for in N.J.A.C. 10:161B-6.4(c);

â†‡ The right to be notified in writing, and to have the opportunity to appeal, an involuntary discharge; and

â†‡ The right to have access to and obtain a copy of his or her clinical record, in accordance with the program's policies and procedures and applicable Federal and State laws and rules.

Informed Consent and Disclosure

As a client at this outpatient program, you have the right to receive a full explanation of all treatment models employed, and the expected benefits, risks, and time frames for results of each modality. You have the right to choose to receive treatment, to stop treatment at any time, or to seek treatment from another provider outside of this agency, and the staff will provide supports to carry out your decision. As a result of your rights the following disclosure is being made to you: This is a notice of disclosure that the kop Outpatient Program may periodically engage in the training and supervision of college level and CADC ready interns to provide support services to the program during your enrollment in the program. An intern is a student who is in the process of completing a degree or an area of learning in the field of substance abuse as a prerequisite to graduating from a University, College, or obtaining a credential as a substance abuse counselor. All potential interns must complete a thorough employment application, including a background check, reference verification and a general physical through the ikp administration and after which, interns are subject to a second level screening by the clinical supervisor to determine the intern's appropriateness for the program. Consumers are also surveyed fur feedback on the effectiveness of the Intern Program.

Your treatment program is scheduled to last approximately 4-6 months with you attending up to 3 days per week depending on the severity of the substance use disorder. ***For clients on Subutex and Suboxone for opioid maintenance or detoxification the following guideline shall apply: 1. Clients who have abstained from alcohol and illicit drugs for 90 days or more shall attend group therapy once weekly for up to 4 -6 months, 2. Clients who has maintained sobriety for less than 90 days shall attend group therapy twice weekly for up to 4 -6 months, 3. Clients who are actively using illicit drugs and unable to quit will be referred to either IOP or inpatient treatment program with an affiliate agency.***

It is the intent of the program to provide you with caring and professional services delivered by professionals with experience in addressing SUD with sensitivity to female issues. While in the program, you may expect to benefit from the services delivered, however, due to the nature of such treatment and because of facts beyond the staff persons' control such benefits cannot be guaranteed. However, regular attendance and high levels of active participation in your treatment will produce maximum benefits. You will be expected to be present at the scheduled times of your treatment and if you are unable to be present, call the office to report that you will either be late or absent. Someone will take your message and forward it to your counselor, should they be unavailable to speak with you directly. Regular attendance and high levels of participation in your treatment will produce maximum benefits. While you are in treatment you maintain your rights as an adult and citizen in the United States and you will be provided with a grievance procedure should you feel that your rights have been violated. If you decide to end the treatment relationship it would be best done in writing with as much advance notice as possible to assure appropriate after care planning, however, you are free to terminate treatment at your will
